HISTORIC AMERICAN ENGINEERING RECORD

NY-58

DELAWARE, LACKAWANNA & WESTERN RAILROAD  
ATLANTA PASSENGER & FREIGHT STATION

Date: 1882

Location: Main and Beecher Sts. Atlanta, Steuben County,  
New York

Built by: Delaware, Lackawanna & Western Railroad.

Significance: The station at Atlanta is a representative example of the "combination" station (one that has the ability to service both freight and passengers seperately under the same roof). This station is very similar to another D, L & W station in Vestal New York (NY-50), suggesting that the D, L & W used "stock" plans for the small stations along the line.

Transmitted: Dan Clement, 1983.
